HAS GONE TO HILO

Mr. James T. Stacker Ac-
cepts New Position.

Former Associate on Advertiser
Present Him With an
Umbrella.

Mr. James T. Stacker, for the past two years City Editor of the Advertiser, left on the Kinau yesterday for Hilo, to become the Editor of the Hawaii Herald. He will enter upon the duties of his new position immediately.

Mr. Stacker's ability as a news-gatherer and a writer, an all-round newspaper man, made him a valuable man for the Advertiser. He had the faculty of making many friends, whose esteem he won, and of gaining the confidence of business men and Government officials who knew that they could discuss their affairs with him freely, traits absolutely essential to success as a newspaper man.

His ability was recognized in other parts of the Islands as well as in Honolulu, and when, on a recent visit to Hilo, the owners of the Hawaii Herald made him a better offer to become that paper's editor than the one's previously made, he accepted, and at once resigned his position on the Advertiser. He leaves many friends among the newspaper fraternity and his associates and the Honolulu public.

Previous to Mr. Stacker's departure for Hilo yesterday morning, the employees of the Gazette Company presented him with an umbrella as a reminder of his work with them and a reminder that there is not always sunshine on the big island. On the handle of the umbrella was engraved the following: "Presented to James T. Stacker by the employees of the Hawaiian Gazette Company, Ltd., November 2, 1897."

Mr. C. G. Ballentyne, Manager of the Gazette Company made an appropriate speech and also presented Mr. Stacker with the following letter, printed on satin:

"Honolulu, H. I., Nov. 2, 1897.

"Mr. J. T. Stacker,
"Dear Sir and Friend: Your associates in the service of the Hawaiian Gazette Company regret very much the termination of our close relations. We wish to congratulate you upon your election to a higher position and upon the prospects which we are confident your ability will turn to advantage. We have found you a friend worth having and as a slight evidence of the esteem in which we hold you, we ask you to accept the token here presented. With it goes our heartiest 'Aloha' for the welfare of yourself and family.
"Your friends,
"EMPLOYEES HAWAIIAN GAZETTE COMPANY, LTD."

HOW LUCIFER MATCHES CAME.

Sir Isaac Holden Probably was the Inventor.

It was not generally known, until the St. James' Gazette recently published the fact, that we are indebted to Sir Isaac Holden for the invention of one of the most useful conveniences of daily life—the lucifer match. Such, however, according to Sir I. Holden's own statement, appears to be the fact. The story of the discovery was thus told by Sir Isaac before a select committee of the House of Commons:

"I began as an inventor on a very small scale. For what I know, I was the first inventor of lucifer matches; but it was the result of a happy thought. In the morning I used to get up at 4 o'clock in order to pursue my studies, and I used at that time the flint and steel, in the use of which I gave lectures in chemistry at the time at a very large academy. Of course, I knew, as other chemists did, the explosive material that was necessary in order to produce instantaneous light; but it was very difficult to obtain light on wood by that explosive material, and the idea occurred to me to put under the explosive mixture sulphur. I did that, and published it in my next lecture, and showed it. There was a young man in the room whose father was a chemist in London, and he immediately wrote to his father about it, and shortly afterward lucifer matches were issued to the world. I believe that was the first occasion that we had the present lucifer match, and it was one of those inventions that some people think ought not to be protected by a patent."

A GOOD-SIZED CROP.

Florida's orange crop for 1897-98 will soon be going forward to market, and a good many estimates are being made as to what the crop will figure up. Last season it amounted to about 125,000 boxes. That was the first year, fruit after the freeze, and the crop was accordingly very small, especially when it is recollected that the product of the State had been numbered in millions rather than in thousands of boxes. A careful estimate made by a gentleman who is well informed as to the crop throughout the State places it in round numbers at about 200,000 boxes. It is believed that these figures are conservative, and that the crop will go above rather than below the figures named.

HOW TO CURE BILIOUS COLIC.

I suffered for weeks with colic and pains in my stomach caused by biliousness and had to take medicine all the while until I used Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured me. I have since recommended it to a good many people. MRS. F. BUTLER, Fairhaven, Conn. Persons who are subject to bilious colic can ward off the attack by taking this remedy as soon as the first symptoms appear. Sold by all druggists and dealers, Benson, Smith & Company agents for the Hawaiian Islands.

THE FIRST NEWSPAPER.

Peking's Kin Pan is the oldest newspaper in the world, having been published continuously for nearly a thousand years, says the New York Sun. It began as a monthly, became a weekly in 1361, and since the beginning of the century has been a daily. It now publishes three editions a day, and in order to prevent cheating by the vendors, prints them on paper of different colors, the first being yellow, the second white and the last gray.

More than 2,000 people mysteriously disappear from London every year, and are never heard of again.

AUCTION SALE

Of the Property of the

Hawaiian Coffee and Tea Co.

KONA, HAWAII.

I have received instructions to sell at public auction at my sales room in Honolulu, on

SATURDAY, NOVEMBER 20,

AT 12 O'CLOCK NOON,

All the property of the above Company, comprising about 790 acres of leased lands and 482 acres in Fee Simple. Of the above area, about 200 acres are planted in coffee, the trees varying from about 1 year to 5 years in age.

There is a large mill on the place, fully equipped, from which an income can be derived in cleaning and marketing coffee from the adjacent planters.

The place is well equipped with water tanks, tools and implements, wagons, horses, mules, manager's and laborers' houses, piping, office furniture, etc., etc.

The coffee fields are well fenced and roads built to the various portions of the estate.

A large portion of the coffee trees are now in bearing and are nearing the age to produce maximum crops.

For further particulars in regard to leases and all necessary information, apply

JAS. F. MORGAN,
AUCTIONEER.
